

BASIX
FALL PREVENTION SCREENS

Affordable, stylish and great for ventilation, our BasiX screens & doors are a revelation in the security screen industry.

Best of all, they are compliant with the Kids Don't Fly building code making them the perfect solution for your home.

PEACE OF MIND

BasiX's stainless 0.71mm, 316 woven wire mesh offers a powerful and affordable alternative to more expensive security screens, while still delivering the peace of mind that your home will be safe from intruders or unwelcome guests.

CHILD SAFETY

BasiX complies with the Kids Don't Fly building code, meaning your home or business will meet all the standards and regulations required for it to be considered a safe place, while offering a more practical and visually pleasant alternative to window restrictors.

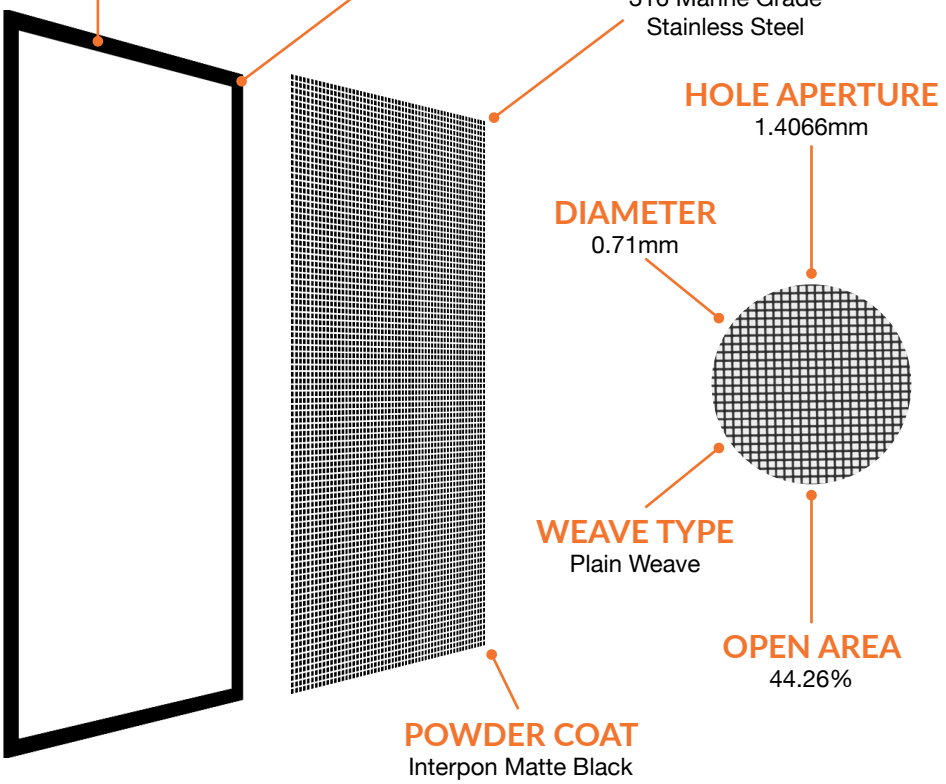

VENTILATION

Room ventilation is extremely important. BasiX screens have the best ventilation out of our grilleless screens ensuring maximum ventilation. We have discovered how helpful this is in reducing mould formation.
