

SECUREVIEW
STAINLESS STEEL
SCREENS

Safe, stylish, and durable—three words that perfectly describe our SecureView Security Screens. They offer the highest level of protection against intruders without compromising ventilation or the look of your home.

You can sleep easy knowing your home is secure and beautifully protected.

SECURE WITH A VIEW

Protection doesn't have to come at the cost of visibility. Made from high-tensile stainless steel mesh, these SecureView screens offer exceptional strength while allowing you to enjoy clear views and natural airflow.

PROTECTING WHAT MATTERS

SecureView is certified as a fall-safe screen and meets the Kids Don't Fly building code. It offers a safe and stylish alternative to bulky window restrictors—helping prevent fall-related accidents without sacrificing aesthetics. It's a smart, compliant solution that gives families real peace of mind.

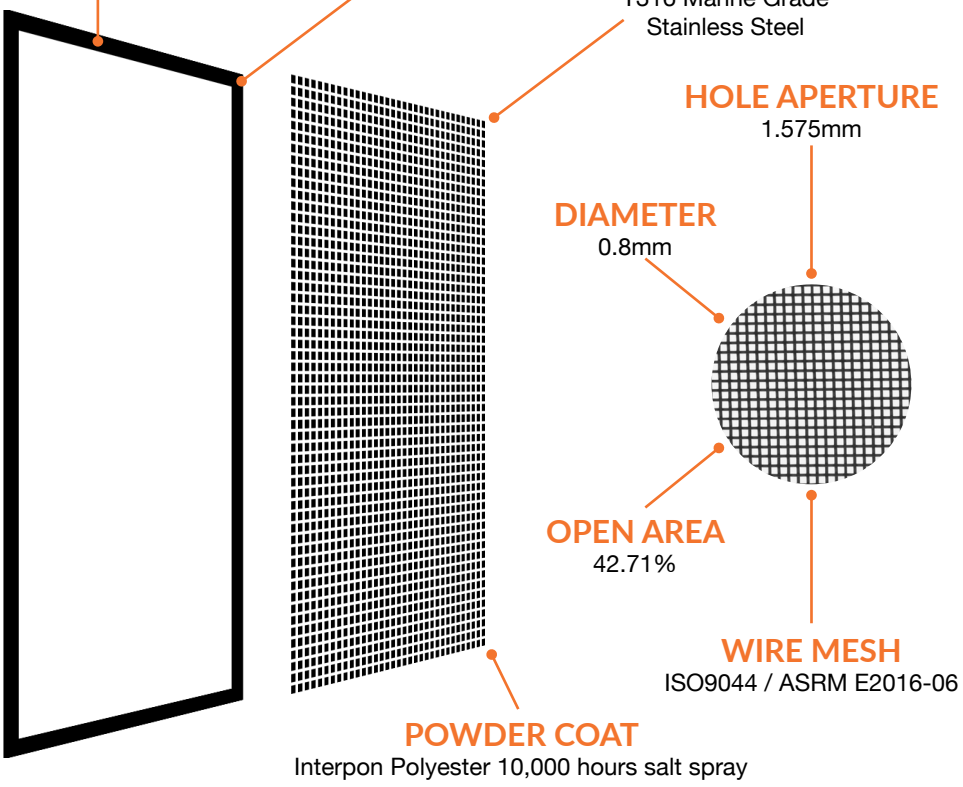

STRENGTH COMES FIRST

SecureView is engineered for superior performance, combining high-tensile stainless steel mesh with a keyway fixing system, 3M WHB acrylic adhesive, and a triple locking mechanism. Built for strength and durability, it stands up to impact when it matters.
